

Durafeed™ 52

EMGP3022

DEEP- PILE HIGH- SPEED FEEDER

The Durafeed™ Deep-Pile Feeders are custom-built in Europe for Nobelus™, and offer high-speed feeding for most of our two-sided laminating machines. Featuring a “roll-away” design for easy in-out access, the Durafeed™ registration table allows perfect alignment and spacing to achieve speeds of over 150 feet per minute. Built with precision electronics and a vacuum drum, the DuraFeed™ is truly the best of the best for modular two-sided laminator feeding. The Durafeed™ 52 unit handles sheets up to 20.5” wide, while the 75 model easily feeds sheets up to 29.5” width. Minimum sheet size: 4.7” x 4.7”

SPECIFICATIONS

Max Speed:	490' Per Minute
Min/ Max Sheet Size:	4.7” x 4.7” / 20.5” x 29.5”
Paper Weight Range:	50# Text- 160# Cover
Power Requirements:	100- 240 VAC, 50/60 Hz
Machine Dimensions:	45”L x 19”H x 57”D
Machine Weight:	385 lbs.
