

DuraTrim™ 30

EKRT2030

AUTOMATIC LAMINATE TRIMMER | SHEETER

The Duratrim™ Automatic Trimmer/Sheeting unit provides the greatest accuracy of any laminate trimmer on the market. Running at speeds of over 70 feet per minute, the ingenious “dancer-bar” feeding technology allows a steady flow of laminate web material for optimum productivity. The fiber-optic eye reads the sheet edge, and engages a high-speed flying knife, offering cut accuracy to the 1000th of an inch. The servo-drive motor and touch screen control panel combine for speed and ease of use. Also available in a 64” unit.

SPECIFICATIONS
